Disneyland Resort Paris features two theme parks, an entertainment district and seven Disney-owned hotels. Operating since April 12, 1992, it was the second Disney resort to open outside the United States (following Tokyo Disney Resort),

Unlike Disney's American theme parks, Euro Disney aimed for permanent employees, (12,000 are needed for the theme park itself) as opposed to seasonal and temporary part-time employees. Casting centres were set up in Paris, London, Amsterdam, and Frankfurt. Disney sought workers with sufficient communication skills, spoke two European languages (French and one other), and were socially outgoing. Euro Disney set up its own **Disney University** to train workers. 24,000 people had applied for jobs by November 1991!
