Health, health care, and general living conditions in Nigeria are poor. Life expectancy is 47 years (average male/female)

The drill monkey is only found in the wild in Southeast Nigeria and neighbouring Cameroon. The Drill is one of Africa's most endangered primates

Nigeria provides free, government-supported education, but attendance is not compulsory at any level, and certain groups, such as nomads and the handicapped, are under-served. The rate of secondary school attendance is 32 percent for males and 27 percent for females.
