

As Sean was posing for yet another photo, he was blissfully unaware that the traffic had come to a stand still and onlookers were yelling 'don't jump!'

Russia is, in area, by far the largest country in the world, covering more than an eighth of the Earth's land area; with 142 million people.

**Yuri Gagarin** was a Soviet cosmonaut. On 12 April 1961, he became the first human in outer space and the first to orbit the Earth. He received medals from around the world for his pioneering tour in space.
