

# Sean—Mauritius February 2010

Sean was enjoying socialising on the boat and the warm breeze on his fur, but when the speed increased, he felt more secure 'wedged' behind the seats. Safety was more important than the view!

Sean was delighted to make some new animal friends in Mauritius. He was however glad, his new lion friend chose to hug the tree instead of him!

The island of Mauritius is renowned for having been the only known home of the dodo. First sighted by Europeans around 1600 on Mauritius, the dodo became extinct less than eighty years later.
