

SEN

We believe all students should be valued as individuals and as such appreciate their different learning styles and needs as they progress through the school and out into the wider world. Our team of specialist teaching staff and Learning Support assistants work alongside colleagues and parents in and out of the classroom in order to promote learning and to enhance their life chances.

We aim to foster an environment

whereby they feel safe, happy and able to learn at a level and pace appropriate to them. Students are welcomed into the department which is located in the language building. They may receive in class, small group or individual tuition to improve their access to learning. We also offer the facility of an after-school Homework Club.

Our ultimate aim is to equip students with a sense of self-belief and an ability to respect the values of others. This will enable them to develop a sense of responsibility that allows them to interact successfully and achieve their full potential.
